

BOMBAY CELOSIA

Curly Furry Favorite

Velvet frills on furry fan-shaped flowers!

AVAILABILITY

JULY
THROUGH
NOVEMBER

Celosia is often referred to as “brains” in the floral industry, for its bizarre likeness to our cerebral matter... only in glorious technicolor!

In the language of flowers Celosia means “silliness”.

Sun Valley grows the unusual “Bombay” variety and it is a sensation! Few sights equal that of giant 4 to 6-inch bright colored furry flowerheads topped with intricate curls, ruffles, twists and tipped with vivid color.

COLOR: The spectacular appearance, texture and color of the Bombay Celosia makes it a bold addition to any fresh flower bouquet - the vibrant colors range from yellow and green to hot pink, orange, red and wine.

HISTORY: The name Celosia is derived from the Ancient Greek “Kelos”, or “to burn” referring to the flower’s color.

LENGTH : Big flowerheads arise on tall stiff 24” stems.

LASTING: Longevity of Bombay Celosia is usually between 7 and 14 days.

BUNCHES: Standard bunch size: 5 stems. Also available as Consumer Bunches.

DISPLAY: Excellent for exotic effects in floral arrangements.

OTHER USES: In Nigeria, Celosia is grown as part of the staple diet known as Soko.

CARE & HANDLING: Keep cool at all times. Strip off leaves and recut at least an inch off each stem and place in water immediately. Use a fresh flower food solution as this will help keep open flowers looking fresh. Replace vase water with fresh flower food solution every day.
